

COMMISSIONING & TRAINING TECHNICIAN

JOB SUMMARY

Attention new grads! Looking to kickstart your career? Join our team at Livestock Water Recycling. We are seeking talented and passionate individuals to be a part of our dynamic team. Take this exciting opportunity to grow professionally, work with innovative technology, and make a real impact

We are looking for a **Commissioning and Training Technician** to join our team and provide technical support to our clients located across the USA. The successful candidate will have a technical background and be able to commission, troubleshoot, diagnose, and repair LWR technology. The ideal candidate will also have excellent problem-solving skills, be able to work independently, and be an excellent communicator. If you're ready to bring your technical skills to a role that combines hands-on work with travel, we'd love to hear from you!

The candidate will report to our office in Calgary, AB, and is not required to live in Calgary, but local candidates are preferred. This is an entry level position with opportunity for growth in a small, but scaling organization. Travel expenses are paid by LWR and benefits are included after 3-month probationary period.

RESPONSIBILITIES INCLUDE, BUT NOT LIMITED TO THE FOLLOWING:

- Travel to customer sites for installation and servicing of LWR systems
- Communicate daily with supervisor on project progress
- Provide support to clients with system installation, commissioning and product knowledge
- Train site operators on proper LWR system operation and maintenance
- Prepare reports, budgets and timesheets at end of day
- Available for on-call site support hours during weekends and evenings periodically
- Participate and contribute to the engineering meetings with ideas and feedback from the field
- Adhere to all prescribed safety procedures, including wearing assigned safety equipment

Lab Testing and Sample Delivery

- Execution of chemical testing procedures
- Collect raw samples on site to ship back to the LWR Lab.
- Provide support for lab testing
- Record execution collection and submission for all testing work

REQUIREMENTS:

- Mechanical/electrical field work experience an asset
- New graduate from Engineering Technology diploma (mechanical preferred)
- PLC and HMI experience an asset
- Basic plumbing and electrical experience an asset
- Driver's License with clean record
- Valid passport for unrestricted travel to USA and other international locations
- Experience in the agriculture industry preferred

WORKING CONDITIONS:

- Travel frequency will be 75% or greater based on project requirements
- Must have the physical ability to bend, stoop, lift, kneel, squat
- Must be able to lift up to 50lbs
- Will be required to stand for long periods of time
- Will be working in rural locations

TO APPLY:

- Email your resume and cover letter to [Human Resources](#).
- The subject line of the email should include the name of the position you are applying for

Initial communication for selected applicants will be done by email, so please ensure you monitor your junk mail. We appreciate your interest in our company, but only those selected will be contacted.

Thank you for considering LWR!
